PROFILE

I'm a **Visual Designer and Front-End Developer** with a passion for creating visually stunning designs and user-friendly websites. I love turning ideas into designs that tell a story—whether it's logos, posters, or full website layouts. Currently, I'm expanding my skills by learning React and Tailwind CSS or more thing to grow further as a developer and build more dynamic, modern web experiences.

WORK EXPERIENCE

Mad Influence November, 2025 – Present

Graphic Designer

Worked as a Graphic Designer creating engaging social media content, branding visuals, and marketing assets for campaigns. Developed presentation decks and designed emailers for Mailchimp, while handling a wide range of graphic design tasks including ad creatives and promotional materials with consistent quality and timely delivery.

Interzens Marketing Agency february, 2025 – October, 2025

Graphic Designer and Front-end developer

Worked as a Senior Graphic Designer & Front-End Developer in a digital marketing agency on projects across real estate, business consultancy, and marketing. Handled image editing, social media posts, Meta ads creatives, animated videos, website layouts, and occasional print designs. Developed and managed eCommerce websites based on client needs, and mentored an intern on company tasks and industry standards.

Delberto E-com Pvt Ltd. Oct, 2024 – January, 2025

Graphic Designer and Front-end developer

Worked as a Graphic Designer & front-end developer, handling projects like product image editing, social media posts, newspaper ads, Meta ads creatives, website banners, video creation, and developing/managing eCommerce websites based on client requirements. Also guided an intern, helping them understand tasks aligned with company needs and industry standards.

RIMS India Pvt. Ltd. April, 2023 – May, 2024

Graphic Designer and Front-end developer

Worked as a Graphic Designer & Front-end Developer, creating product catalogues, social media posts, banners, Meta ads creatives, also website layouts. Skilled in photo editing, website layout design, and converting design mock-ups into responsive websites using coding languages
